B. About efficiency

Please select a rating that best reflects your opinion on the following aspects of the Action week, where 1 is Very Satisfied and 5 is Not at all satisfied (tick one per statement).

ACTIVITIES	1	2	3	4	5	Comments (please insert a comment for each rating)
All activities planned have been realized	v					All planned activities were well done (Stakeholders meeting and action week)
National Stakeholders meeting	v					Well done.
Action Week launched in Districts	v					I am very satisfied because there were additional activities such as meeting at cell level and media involvement.
Publics discussions		v				Well done but it was raining in Burera District. That's why the number of participants is limited.
Workshops						Not done. We did not propose to organize a workshop. We planned for public discussions.
Media		v				The media was implicated by publishing the message 2 or 2 times per day.
ECD policy and strategic plan copies have been distributed	v					99 % were distributed the rest was for the Field Offices' sample.
Posters posed	v					Were distributed with other documents.
Authority commitment has been taken		v				The Mayors were committed. The in charge of education at sector level organized meeting at cell level and requested for new ECDs.

C. Overall view

What made you enthusiastic about the action week?

-The commitment of the Mayor of the District, all officers in charge of Education at Sector level were most interested while it was not well understood in previous years.

What elements didn't really work-in the planning or implementation of the action week activities?

-Nothing though it was not a hundred percent well performed.

Is there an innovative action in planning/implementing the action week that you would like to share? Which one?

-Yes, it will be better when the campaign takes at least one month instead of one week, so message can reach as many people as possible. More effort and continue advocating so that MINEDUC can value ECD for next year budget plan.
