

WELLSPRING FOUNDATION FOR EDUCATION

Who we are

- The Wellspring Foundation for Education was started in response to the vision of Rwandan Christians to rebuild their country following the 1994 genocide.
- Wellspring is actively working alongside Rwandans to empower a new generation of leaders through an education that transforms lives.
- Established in 2004, Wellspring has since emerged as a trustworthy partner and a catalyst for transforming the Rwandan education sector.

What we do

- The Wellspring Foundation is becoming the leading organization in Rwanda at developing, modeling, and multiplying lasting educational solutions.
- Our commitment to putting people at the heart of our development efforts—and engaging in partnership—is demonstrated clearly in each strategic initiative we undertake.

ECD

- In a very near future, we are starting working with the ECD operating in schools that we are working with in Gasabo District.
- We are going to empower parents and teachers of ECD using the ABCD (Assets Based Community Development) program.
- Wellspring has a detailed action plan for utilizing ABCD in its School Development Program.
